

## **NOTICE FROM OUR LOCAL POLICE CONSTABLE**

There has been an increase in rural crime across our area. In particular Ifor Williams trailers and bridle tack appear to be the main targets with various tools being an added bonus where they are easily accessible.

Whilst the Police have been out and about several comments have been made about 'they'll never come up here. I'm too remote for them to find me'. This is a wrong assumption to make. The more remote a property the less likely the perpetrators are to get disturbed and it will have been checked out earlier, but they also stress that even properties in populated areas are also being targeted.

Please make sure you are taking the necessary steps to protect your property and report any suspicious vehicles, preferably with an index, or suspicious activity in their area.

Thanks for your help.

Rich
